## TR-102 REGULAR MOLD RELEASE

- DESCRIPTION:** TR-102 is a firm mold release wax based on high quality refined carnauba, and petroleum distillates.
- PRODUCT FEATURES:**
- \* Ease of application and removal. May be allowed to stand at length and still wipe off easily.
  - \* Fast drying for higher production rates.
  - \* Based on quality refined waxes that are one of the hardest and most heat resistant.
- USES:** Recommended for all fiberglass tooling, formica, metal and other hard surface molds.
- APPLICATION:** On new or reconditioned tooling, suggest use of our TR-301 Sealer prior to waxing for added release, gloss and mold life. Use a minimum of 5 coats of TR-102 paste wax when conditioning a new mold, allow approx 1 hour dry between applications. On well conditioned molds already in use apply the TR-102 with enclosed sponge applicator as needed. Allow to dry and remove with soft toweling.

**SAFETY PRECAUTIONS:**

Contains petroleum distillates combustible mixture. Keep away from heat and open flame. Keep container closed when not in use. If accidentally swallowed call a physician. Do not induce vomiting. Keep out of reach of children.

**WARRANTY:**

The information contained herein is based on test considered to be reliable and accurate. Because of the wide variance of associated materials and condititons, however, no warranty is expressed or implied. Each user is encouraged to prepare a test part for his particular application.
